

Polyalcoholic antiseptic solution for hand disinfection

ECOSAL® forte

Composition

100 ml solution contains:

Ethanol 46.0 g

2-Propanol 25.0 g

Excipients: Skin care additive.

Properties and action

ECOSAL® forte is clear solution with characteristic odour.

ECOSAL® forte has a wide range of microbicidal action and quick microbicidal effect, even in the presence of organic matter. Its microbicidal effect is better, compared to antiseptic soaps. Frequent use nourishes the skin, unlike soaps which have harmful effect. It also safeguards against the risk of splash and contamination of clothes and premises. The time needed for hygienic disinfection of hands with **ECOSAL® forte** is by several times shorter than the hygienic handwashing.

Bactericide - including *Staphylococcus aureus*, MRSA, *Pseudomonas aeruginosa*, *Escherichia coli*, *Enterococcus*;

Tuberculocide;

Fungicide - вклучувајќи ги и *Candida albicans* и *Aspergillus niger*;

Virucide - enveloped and nonenveloped viruses, including HBV, HIV, HCV, *Rota virus*, *Influenza virus*, *Herpes virus*, SARS, SV 40, HAV.

According to scientific studies and testing, with a proven effect against SARS-CoV-2.

ECOSAL® forte is approved for use in food industry.

Use

ECOSAL® forte is used for:

- hygienic hand disinfection (by rubbing in);
- surgical hand disinfection (by rubbing in);
